

Thank you for choosing YH OB/GYN for your prenatal care. We are happy to have our *family* provide great care for your family. We are committed to making your pregnancy as comfortable and as enjoyable for you as possible. In effort to provide exceptional care, we have a practice/ patient agreement to ensure a personal experience. Our practice consists of four nurse practitioner midwives and three OB/GYN physicians. All of our providers work closely together as a team. Our group is very unique in offering both a midwife and a physician on call twenty four hours a day, seven days a week. As a patient, we recommend that you see both midwives and physicians in order to gain a relationship with all of our clinical staff up until at least twenty eight weeks of pregnancy.

If you have decided to see only midwives, you will need to have an appointment to see each midwife at least once. The midwife on-call the day you deliver will vary. By seeing every midwife, you will have gained a relationship with each provider in hopes that your delivery is a more personal one. Please know that in the event of an emergency, one of our physicians will be aiding in your care.

If you have decided to see only physicians, you will need to have an appointment to see each physician at least once. The physician on-call will vary. By seeing every physician, you will have gained a relationship with each provider in hopes that your delivery is a more personal one.

If you are planning a repeat cesarean, you will have the option of choosing your primary delivering physician. For routine care we will need to schedule your appointments to see every doctor at least once during your pregnancy. If you would like to see the midwives, you may do so up until thirty-two weeks of pregnancy.

In order to provide the best care possible to you, YH OB/GYN and our birthing center respectfully reserve the right to perform random drug testing. Use of certain drugs may require the use of a neonatal intensive care unit and are not safe during pregnancy. We ask that you update us during your pregnancy if you are on any new medications.

We always strive to schedule appointments based on your availability on providers that are not on-call. If a provider is on-call we will inform you and ask that you call ahead the day of your appointment. In the event of a delivery or emergency, we contact patients who are scheduled immediately. We always try to accommodate the appointment that same day with another provider.

We look forward to providing a wonderful experience during this important time in your life. Thank you for letting us participate in your growing family.

As a patient of YH OB/GYN, I have read the provider/patient agreement and understand what is required for my obstetric care.
